COURSE PER-231

Prevention of and Response to Suicide Bombing Incidents (PRSBI)

Location

US Army Garrison Fort Hamilton
Brooklyn New York
Post Theater – Building 403

August 30, 2007 12:00 PM –4:00 PM

The New York State Office of Homeland Security with the New York City Office of Emergency Management is sponsoring a course provided by the New Mexico Institute of Mining and Technology: National Energetic Materials Research and Testing Center hosted by New York Army National Guard's Joint Task Force Empire Shield – Team MTA. This is a basic level performance course designed to communicate basic information concerning explosive and incendiary devices that could be used as terrorist weapons.

The PRSBI course provides training on suicide bombing threats. The course includes familiarization with improvised explosive devices (IEDs) and explosive materials typically used in suicide bombings. It also addresses actions that individual emergency responders can take to assist in preventing or deterring suicide bombings, as well as techniques, tactics, and procedures that support an effective and safe response to a suicide bombing.

COURSE OBJECTIVES

At the conclusion of this course, participants should be able to:

- Providing participants with the skills and knowledge necessary to identify and report pre-attack indicators
- Participation in an integrated response to a suicide bombing using safe and effective techniques, tactics, and procedures
- Preparing emergency responders and others who are involved in incident response to perform safely and effectively during incidents of terrorism involving energetic materials
- Instilling in participants a respect for the destructive potential of energetic materials that could be used by terrorists in a WMD incident

PREREQUISITES

Course participants must be certified in their agencies as firefighters, law enforcement officers, or emergency medical response personnel, or be assigned to a position in another agency that provides initial response to bombing incidents OR be employed by a State or local government crisis-planning organization or civil defense organization; civil public works department or publicly owned utility; mutual-aid partners in crisis management; public or private health community; Red Cross and shelter operations; public school system; allied professionals (on a need-to-know basis); and other responding personnel with a need to know.

COURSE COMPLETION

Upon completion of this course, participants will receive a certificate from the New Mexico Institute of Mining and Technology and the Energetic Materials Research and Testing Center and the New York State Office of Homeland Security.

WHO SHOULD ATTEND

The courses are designed for a wide variety of participants, including **but not limited to:**

- Law Enforcement
- Fire Service
- Emergency Medical Services
- Emergency Management Agencies
- Protectors of Critical Infrastructure
- Hazardous Materials (HazMat)
- Public Health
- Public Works
- Public Safety Communications

COST

There is no fee for the course. However, lunch is not included and participants are requested to provide their own.
