Learn About:

- Airway Evaluation and Control
 - Intubation
 - Combitube
- Fundamentals of Cardiac Pharmacology
- Rhythms of the Heart
- IV Preparation Access & Management
- And more!

EMT-Basics are not trained to provide advanced cardiac life support (ACLS), but there is much they can do to assist Paramedics, improve the quality of care rendered and thus the patient's chance for survival in an emergency. *ACLS for the BLS Provider* teaches what you as an EMT-Basic can do in situations that require advanced cardiac life support.
