

EMS Comedy Movie SKID MARKS Released
Jan 30, 2008

In April 2006 we passed along information that a production company was starting work on this movie. It was released on 1/25/08 to a small number of theaters (3) in the San Diego, California area. It is unknown if additional theaters will be added or if it will go direct to DVD.

Some might consider it a 1976 *Mother, Jugs & Speed* brought up to 2008.

The NYSVA&RA only provides this info about the movie to let you know it is out there. It will do nothing to enhance the public's perception of EMS.
