Conference Goals

The goal of Nyack Hospital's Fourth Annual Trauma Conference is to provide a multidisciplinary approach to the discussion of complex issues and subjects that affect the care of the injured patient. The target audience for the conference includes Nurses, PA's, NP's, Paramedics and other Health Care Professionals. A faculty of well recognized local and national experts in all aspects of trauma care will provide the audience with their own unique perspectives on issues dealing with trauma care of the adult and pediatric patient including management in the pre-hospital care setting, emergency room through discharge.

Objectives

1. To review and discuss the principles of adult and pediatric trauma management in the pre-hospital environment
2. To review and discuss physics of Burn/Blast Trauma from both accident investigation and autopsy standpoints.
3. To comprehend the differences while caring for a burn patient
4. To review the current advances in Burn/Blast-trauma and Wound Care
