We use computer based, interactive on-line learning that you can access from your home computer or from our on site computer lab. Our on-line exams make it the perfect and most convenient way for the student to apply the knowledge they have learned. We offer the resources of a large University and the most experienced faculty in the EMS field. Our skill labs are set up to allow students to interact with the faculty members and learn in a professional academic setting.

All courses include BCLS, ACLS, PALS, NRP and WMD
