September 2010

CAC Live Houston - December 5 to 7

RAC Conference Center, Houston

Limited Seating!

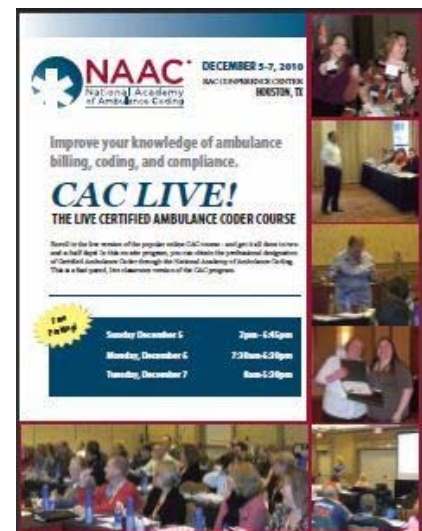

[Click Here to Register](#)

Enroll in the live version of the popular online Certified Ambulance Coder (CAC) course - and get it all done in two and a half days! This program is the first CAC Live stand-alone event; it is not being offered as part of ABC3. Only CAC Live will be presented in Houston.

In this on-site program, you can obtain the professional designation of Certified Ambulance Coders through the National Academy of Ambulance Coding. This fast-paced, live classroom version of the CAC program is completed in two and a half days. Following successful completion of the final exam, which will be administered at the end of the course, you will be certified on the spot as a Certified Ambulance Coder. Take advantage of this opportunity for the live CAC course, where you will have live interaction with expert presenters.

Registration fee of \$895.00 includes enrollment fee, course materials, tuition and examination fees. Refreshment breaks are included every day. Continental breakfast and lunch will be provided on Monday and Tuesday.

## WHAT THE INDUSTRY IS SAYING ABOUT CAC

*"Finally! Expert level training that is specific to the challenges associated with ambulance billing. In an ever changing industry it is vital to have the level of*

*education that is provided by NAAC®."*

*"It will be nice to have a standard in place to compare to when training in new employees and also for continuing education. An excellent addition to ongoing compliance."*

*"This is an excellent course of study for both the seasoned biller or the new employee. [...] giving us the ability to provide a consistent, interactive process to deliver the essential elements of ambulance coding and billing."*

*"This course exceeded my expectations. I truly learned a lot more about areas I thought I was already proficient in. This course is the exact tool that Ambulance companies have needed to get the support and training deserved in a very difficult specialty."*
