

The Glen Oaks Volunteer Ambulance Corps Training Committee is attempting to put together a class for the ESCAPE Program (<http://escapeprogram.net/>). The director of this program is interested in working with us to deliver a program in the city (and if enough interest, more than 1). This program covers self-defense and simple restraint techniques for EMS providers. Given the prevalence of violent and impaired patients in the areas we serve, we believe this type of education is needed for responders in NYC- and especially important for our EMS volunteers.

The cost for the program would result in a per person charge of about \$50-60 for a class of 40. If you are interested in attending, please email training@glenoaksvac.org with:
