

New York Hospital Queens Emergency Medicine Education Center

LEARN THE NEW CURRICULUM USING THE 2011 COURSE MATERIALS

EMT BASIC

New York Hospital Queens Emergency Medicine Education Center is proud to announce our Summer EMT-Basic Original program. Our accelerated 2 1/2-month program includes over 160 hours of 100% classroom based instruction. Learn from instructors, rather than teaching yourself from your computer. Upon completion you will be qualified for both the New York State and National Registry exams.

As an NYHQ student you will gain nearly 30 hours of clinical experience through both the Emergency Room and on ambulances. The overall top performer will be interviewed for a per-diem EMT position with New York Hospital Queens. Reserve your seat today. This class WILL be sold out.

REFRESHER

New York Hospital Queens Emergency Medicine Education Center is offering an EMT-Basic Challenge Refresher for the August 18, 2011 New York State written exam.

You are welcomed to attend any of the course lecture or skills nights, however after the challenge exam, you will only be required to attend the classes that you need to best prepare for the New York State Exam.
