### **CPAP and B.I.G.**

**Please come and join us for our first ever Skills Based CME**

CPAP: The when and whys to use the device (lecture) as well as Practical session on the assembly and trouble shooting of the device.

B.I.G. (bone injection gun): Discuss when and how to use device, as well as an open forum to discuss problems that may have been present when you used it before.

This CME is approved for four hours of CME to be used for your CME Based Refresher and REMAC

Presented by: Peter Tostaine EMT-P, CLI
