ENOUGH TALK ABOUT PATIENT CARE! LET'S TALK BUSINESS!

Pulse Check Conference – September 22, 2018
HOW GOOD ARE YOU?

- What plagues our agencies?
- What direction are you going?
- Who is going to point us where we need to go?
- No one has a lot of money...how do we do it cheaper?
THEN WHY DO WE LEAN ON:

“Well patient care has to come first”

“We are a small agency, we can’t do that”

“We have always done it that way”
WE LEAN ON IT BECAUSE OF THE LEADERSHIP CYCLE
THIS IS STILL NEW TO ME
WE WILL GET TO IT

Special Agent Kevin J. Crawford of the FBI
TRUE LEADERS...

Are bred, not born!

Comes from making mistakes.

Have the ability to flock towards conflict, not drama.
ACCOUNTABILITY STARTS WITH YOU!

Feel the pressure yet?

Are you able to contemplate a new mentality?

Can you cope with being a number?
IT COMES DOWN TO...

Good communication between personnel to delegate tasks.

Use integrative thinking instead of the conventional thinking.

Check in on your people (Accountability of your members).

Having the financial resources to keep the doors open.
ARE YOU LISTENING?

Listening is our least developed comprehensive skill.

70% of our day is spent communicating.

45% of communication time is spent listening.

We only retain 33% of what is said to us.
FOUR RULES OF GOOD LISTENING

1) Think ahead of the talker.

2) Weigh the evidence used to support his/her points.

3) Mentally review and summarize each point as it is said (Is it valid, if not question it).

4) Watch for NON-Verbal communications.
INTERACTIVE THINKING

“They have the predisposition and the capacity to hold in their heads two apposing ideas at once. And then, without panicking or simply settling for one alternative or the other, they’re able to creatively resolve the tension between those two ideas by generating a new one that contains elements of the others but is superior to both”

~Roger Martin
