RADIOLOGICAL EMERGENCIES FOR THE FIRE SERVICE
COUNTY COURSE

This is a 3 hour course being held on the following dates:

October 6th from 19:00 to 22:00 hours

Description: This course presents information to familiarize Fire Departments with the Westchester County Radiological Emergency Preparedness Program (REPP) for the Indian Point Nuclear Power Plant and the role of Fire Department personnel in response to a radiological emergency at the facility.

Agenda:
- Nuclear Power Plant Operations Overview
- Radiation Basics
- Emergency Planning Overview for Emergency Workers
- Radiation Exposure Control
- Responding to a Radiological Contaminated/Exposed Environment

Target audience: All Fire Department personnel.

Prerequisites: None.

Registration: Pre-registration is mandatory. Walk-ins are not permitted. Register through your chief or training officer. Chief's and training officer's can register their personnel at: http://emergencyservices.westchestergov.com/. Class size is limited to seventy-two (72) students.

Venue: Westchester County DES Training Center, 4 Dana Rd. – Grasslands Campus, Valhalla, New York. All students are to park in the lot adjacent to the Support Services Building located at 35 Walker Road. (There is a stairway linking the parking lot directly to the training campus.) For questions or concerns regarding weather or course cancellation call (914) 231 – 1615.

Check out our Website at http://emergencyservices.westchestergov.com/ for the most current information on training.
