• Medical Considerations for Active Shooter Events
  • Presented by Arthur Kakis
  • NYS Trooper – Special Operations Response Team
    • Tactical Medic Instructor – NYS EMT-P

• Active shooter events are one of the most tragic disasters a person could experience in a lifetime. These events have the potential to produce a large amount of casualties with combat-style injuries. These situations will require a tactically specific response by PD, EMS providers, and Fire responders. This lecture is designed to provide first responders with knowledge on how they can better prepare for these events.

• Session is being held on September 7, 2016, at 7 PM
  • Location – OC Emergency Services Building – 22 Wells Farm Rd
    • Open to all EMS, Fire, and PD responders

• CME credits provided
