COURSE DESCRIPTION
The Advanced Burn Life Support Provider Course is an eight-hour course for physicians, nurses, physician assistants, nurse practitioners, therapists, and paramedics. This hands-on course is designed to provide the "how-to" of emergency care of the burn patient through the first 24 hour critical time period. Following a series of lectures, case studies are presented for group discussions. An opportunity to work with a simulated burn patient to reinforce the assessment, stabilization, and the American Burn Association transfer criteria to a Burn Center will be provided. Testing consists of a written exam and a practical assessment.

COURSE OBJECTIVES
At the completion of this course, the participant will be able to:
- Evaluate a patient with a serious burn
- Define the magnitude and severity of the injury
- Identify and establish priorities of treatment
- Manage the airway and support ventilation
- Initiate and monitor fluid resuscitation
- Apply correct methods of physiological monitoring
- Determine which patients should be transferred to a burn center
- Organize and conduct the inter-hospital transfer of seriously injured burn patient

ACCREDITATION STATEMENT
The ABA designates this continuing medical education activity for up to 7 credit hours in the Category 1 of the Physician's Recognition Award of the American Medical Association.
This program also has been approved by AACN Certification Corporation guidelines for 8 contact hours, CERP Category A.
