NECI Emergency Medical Dispatcher Certification Course

Dates: Wednesday 8/10, Thursday 8/11, Friday 8/12
Time: 8:00 AM to 5:00 PM
Cost: $275.00 per student, textbook included in course costs
Authorized CEU/CME: 21.0
Instructor: R. VanDerWall
Location: 5 Fir Court, Suite 1B, Oakland, NJ 07436

Course Description: This is a 24-hour EMD national certification course that certifies formerly trained and experienced emergency communications personnel with the NHTSA EMD National Standard Curriculum. Its primary purpose is to ensure that the student possesses the baseline knowledge and skills to function in the role of an Emergency Medical Dispatcher (EMD) as prescribed by the agency medical control.

This program meets the following EMD national certification standards:

- NHTSA Standard 11
- ASTM 1258 (Standard Practice for EMD)
- ASTM 1552 (EMD Selection Criteria)
- ASTM 1560 (EMD Program Management)

By the end of the course, the EMD Communications Officer candidate will have demonstrated knowledge and proficiency in the following subject to a measurable standard:

- The Components of an EMD Program
- EMD Roles and Responsibilities
- Legal and Liability Issues in EMD
- Chief Complaint Types
- EMD Protocols
- Anatomy and Physiology
- Quality Assurance
- Recertification

All candidates shall be currently certified in CPR by successful completion of an 8-hour American Heart Association, American Red Cross, or National Safety Council CPR Course.

Certification through any state-approved 9-1-1 basic communications training program is required for certification in this course.
