EMS Trauma Pre-Notification: Best Practice Criteria for Early Hospital Pre-Notification for Inbound Trauma Patients

Presented by Southside Hospital: A Member of the Suffolk County Regional Trauma Advisory Committee

This lecture is designed for EMS providers of all certification levels to learn EMS hospital pre-notification criteria for trauma patients.

CME lecture will cover evolving recommendations for:

- Review EMS Trauma Center “Trauma Pre-notification” recommendations as part of our Regional Trauma System with goals for appropriate early activation of Trauma Teams
- Review of CDC Guidelines for EMS Trauma Field Triage and Hospital/Trauma Center destination recommendations
- Review “MIVT” trauma patient care “hand-off” reporting tool

Please join us for one these informative EMS CME lectures.

* 2.0 hrs. EMS Non-core CME will be offered

Venue: Exchange Ambulance of the Islips
190 Carleton Ave, East Islip, NY 11730

Date: Oct 18th, 2016,

Time: 7:00pm – 9:00 pm

EMS Pre-notification Fact:
“Early EMS Pre-notification to specialized hospitals can assist to mobilize trauma care teams to respond to the Emergency Department and be more readily prepared to receive an EMS trauma patient care handoff report”
