Adult Cardiac Related Problems & BLS Protocol Review

Chest pain is a common complaint heard by the EMT, but not all chest pain is cardiac compromise. As an EMT you are trained to recognize the possibility of heart trouble and act accordingly, administering oxygen, assisting with nitroglycerin, and if necessary providing defibrillation. Join Brett Roberts, EMT-B, CIC as he reviews the BLS protocols for Adult Cardiac Related Problem.

This course may be applied towards Cardiac or General Elective CME hours under the NY State DOH EMS Continuing Education Recertification Program.
