The Prehospital Trauma Life Support (PHTLS) course is a unique continuing education program created in recognition of the real need in EMS education for additional training in the handling of trauma patients. This indispensable program is designed to enhance and increase knowledge and skills in delivering trauma care in the prehospital environment.

This course was developed by the National Association of Emergency Medical Technicians (NAEMT) in cooperation with The Committee on Trauma of the American College of Surgeons (ACS-COT).

Students will earn up to 16 hours of NYS Recertification CME, both Core and None-Core, which is determined by the individual EMS provider’s certification level.

For more information contact Mary Jo Stark, RN, MS, CEN, EMT-CC, Peconic Bay Medical Center Trauma Program Manager at (631) 548-6846 or MStark@PBMCHealth.org

Join us from 9 am - 5:30 pm
