Closing Remarks
CME Registration and Evaluation

Target Audience:
Nurses, Physicians, Paramedics and EMT's interested in pre-hospital and emergency care of patients with cardiovascular disease.

Goals:
The goal is to present emergency care providers, physicians, nurses and first responders with the information necessary to improve care and outcomes for the injured patient.

Objectives:
1. To understand how the geriatric patients differs in injury patterns, management considerations and approach.
2. To describe the different types of thoracic injuries and their diagnostic and management considerations.
3. To discuss recent changes in trauma science and exciting avenues for new development.

Continuing Education Information:
This activity has been submitted to the Emergency Nurses Association for approval to award contact hours. The Emergency Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.
