This course is for seasoned healthcare providers who are proficient in performing BLS and ACLS skills, reading and interpreting ECGs, and understanding ACLS pharmacology, including those who regularly lead or participate in emergency assessment and treatment of prearrest, arrest or post arrest patients.

**Course Content**

- Applying the expanded systematic approach (ACLS-EP Survey) to patient assessment, evaluation and Management.
- Cardiovascular Emergencies
- Cerebrovascular Emergencies
- Respiratory and Metabolic Emergencies
- Post-Cardiac Arrest Care
- Clinical Pharmacology and Toxicology Emergencies
- High-Quality CPR
- Effective communication within a resuscitation team and recognition of the impact of team dynamics on overall team performance

ACLS for Experienced Providers goes beyond the core ACLS by offering critical thinking opportunities for those advanced, experienced, healthcare professionals who use ACLS on a regular basis. The goal of ACLS EP is to improve outcomes in complex cardiovascular, respiratory and other (e.g., toxicologic) emergencies by expanding on core guidelines and encouraging critical thinking and decision-making strategies. Through cooperative learning and active participation in case-based scenarios, learners enhance their skills in the differential diagnosis and treatment of prearrest, arrest and post arrest patients.

**Date:** May 19 & 20, 2018  
**Time:** 9am - 5pm  
**Location:** Yonkers Fire Department Headquarters  
**Contact:** Guy Peifer, guy.peifer@yonkersny.gov
