Dutchess Community College

EMS Programs

EMT 104 EMT-Paramedic Refresher

The refresher course is set up to function in the challenge format or full refresher program. Successful completion will lead to recertification through the New York State Department of Health. The program enriches the DOT National Curriculum and involves didactic and practical training in the spectrum of advanced pre-hospital care. Students who take the challenge written and practical examination and do not achieve a passing grade on any exam will require attendance at the appropriate class sessions identified in your individual learning contract. Through successful completion of the challenge exams or satisfying the requirement set forth based on your scores, you will be eligible to sit for the certifying exam.

Prerequisite: EMT-Paramedic
Location: Dutchess Community College – South Campus

Advanced Medical Life Support (AMLS)
Tuesdays January 8th & 15th 9:00am-5:00pm $165

This certification course is a continuing education program designed to present pre-hospital providers with a standardized approach to adult medical emergencies. This course will introduce providers to a practical, complaint-based assessment method, enhance their ability to develop an accurate field impression, and review effective management plans for most major medical emergencies. (16 Hours)

Prehospital Trauma Life Support (PHTLS)
Tuesdays March 5th & 12th 9:00am-5:00pm $165

This certification course is a unique continuing education program created in recognition of the real need in Emergency Medical Services education for additional training in the handling of trauma patients. This indispensable program is designed to enhance and increase knowledge and skills in delivering critical care in the prehospital environment. Designed for all provider levels. (16 Hours)

EMT Refresher Course is designed to review and update the EMT in both skills and didactic knowledge to current 2009 NHTSA standards for EMT-B. The program incorporates a challenge mechanism allowing those who can demonstrate competency to be exempted from the remedial sessions of the refresher program. An individual “Learning Contract” will be developed for each student based upon this challenge exam. The contract will be signed upon completion of the written and psychomotor skills. Persons successfully completing the entire challenge program will be qualified to sit for the NYS Certification exam without attending additional sessions. Those students waiving the challenge exams or who are not successful in passing all of the challenge criteria must attend the full refresher program and will then be eligible to sit for the NYS EMT Certification Examination.

Prerequisite: Previously, but not necessarily currently certified as a NYS EMT.
