Approaching Alzheimer's

The Alzheimer's disease epidemic continues to grow. As a first responder, it's critical to be prepared to face it in your community. People with Alzheimer's or another dementia can unknowingly put themselves and others in dangerous situations. Understanding the disease is key to ensuring you make the right response.

The Alzheimer's Association Long Island Chapter presents a free course for first responders:

Approaching Alzheimer's: First Responder Training
Make your first response the right response.
