Presents

NYS Certification Opportunity
Emergency Medical Technician

When: Mondays and Thursdays
Time: 0800 hours until 1600 hours
Where: NDP Station 1 - 3 Hook Road
Start Date: May 13, 2019
NYS Exam: August 15, 2019

This course consists of nine sections of training including: Preparatory, Airway Management, Patient Assessment, Shock and Resuscitation, Medical Emergencies, Trauma Emergencies, Special Patient Populations, and EMS Operations. A passing grade in each section is required to continue in the class. If you successfully complete the course, you are eligible to take the NYS EMT written and practical exam. This is the minimum requirement in NYS to care for patients in an ambulance.

High school students get a head start on continuing your education. Right now, there is a shortage of EMTs so upon successful completion of the program there may be job opportunities available. This is also an excellent way to give back to your community by volunteering with your local rescue squad. This can possibly assist you with full tuition.

Please call for registration and information, 845-876-0448, Ext. 122 or 136

**You must be 17 years old by August 31, 2019 in order to take this program.

Required Text: Emergency Care and Transportation of the Sick and Injured, 10th Edition
