The major in Emergency Services Administration (ESA) provides a foundation in fire and emergency services, with related courses in management and administration. The major prepares students for careers in leadership in fire services, emergency management and administrative aspects of emergency medical services. Students select from one of the three specializations, supported by a common core that integrates fundamental principles of emergency services. A capstone course brings students from all three specializations together for an integrative research project.

FEATURES OF THE PROGRAM

- Articulates with most Associates degrees
- Current Paramedic certification credits accepted
- Learn from industry renowned and experienced faculty
- Offered through a combination of residential and online courses
- John Jay College is home to long-standing emergency services programs and research
- Affordable CUNY Tuition
