Train-the-Trainer

Severe bleeding control can not only be used during a hostile event, but for such incidents such as car accidents, and home improvement mishaps. But, no matter what the circumstances, the more people that know how to stop severe bleeding the safer we all are.

Learn how to become a Stop the Bleed instructor and assist in pushing this invaluable training to more first responders and the public.

This course may be applied toward Elective CME hours under the NY State DOH EMS Continuing Education Recertification Program.
