Background
Prior to working with Ebola patients, all healthcare providers involved in the care of Ebola patients must receive training and demonstrate competency in performing all Ebola-related infection control practices and procedures, specifically in donning and doffing proper PPE.

Goal
Participants will demonstrate competency in PPE donning and doffing, as well as the ability to train others.

Target Audience
Hospitals
EMS
Public Health

Pre-requisites
Training/education background.

Additional Information regarding Ebola preparedness can be found here:
