Phlebotomy Technician

The Phlebotomy Technician Profession
The phlebotomist is a vital member of the clinical laboratory team, whose main function is to obtain patient’s blood specimens by venipuncture and micro collection for testing purposes. Phlebotomists are employed throughout the healthcare system including in hospitals, neighborhood health centers, medical group practices, HMO’s, public health facilities, veteran hospitals, insurance carriers, and in other healthcare settings. Phlebotomists are an in-demand occupation in our region. According to the department of labor, the growth rate for phlebotomy jobs is over 27% from 2016 to 2026. Annual entry level pay for Phlebotomists is $27,470 per year.

The Phlebotomy Technician Program
The Phlebotomy Technician Program prepares professionals to collect blood and other specimens from clients for the purpose of laboratory analysis. This course covers the following key areas and topics:
