Registered Nurses | Licensed Practical Nurses | Fire Rescue | Law Enforcement

REALISTIC TRAINING SAVES LIVES

TECC
Tactical Emergency Casualty Care

This course is credentialed and certified by the National Association of Emergency Medical Technicians and accredited by the Committee on Tactical Combat Casualty Care (CoTCCC) and the Committee on Tactical Emergency Casualty Care (CoTECC) for core curriculum. The course offers continuing education (ConEd) hours for national registry at 16 hours, and 14 hours of ConEd awarded by the Pennsylvania Department of Health Bureau of Emergency Medical Services. The course consists of classroom training, skills stations and didactic testing.

When: October 5th & 6th (9:00 – 5:00)  
Cost: $175 per student

Where: Roll Call Training Center, 701 Hudson Ave. Scranton, PA. 18504

To reserve your spot, contact: training@rollcall911.com  
Or call 570.881.5974

TECC has applications for ALL high-risk operations, where there is a real and on-going risk to both the patient and provider. Examples of high-risk operations include, but are not limited to:

- Active shooter response
- Wilderness medicine
- Confined space rescue operations
- Law enforcement ‘officer down’ response
- SWAT medical support
- Response to explosive mass casualty
