TRAINING ANNOUNCEMENT

Mass Casualty Trauma Triage

Course Description:

Join Drew Fried, EMT-B/CIC, as he reviews the Start Triage process and its components including the various tagging systems used by EMS, which includes the START and JumpSTART triage processes. The focus of this program is to point out the differences between “conventional” MCIs and mass violence events when, the scene is dynamic, the number of patients far exceeds usual resources; and usual triage and treatment paradigms may fail. We will discuss the differences between hospital and pre-hospital triage and how it might affect care of patients.

This course may be applied toward EMS Operations Core or General Elective CME hours under the NY State DOH EMS Continuing Education Recertification Program.

Date(s) / Time(s): Saturday, October 12th 9-12pm
